Baton Rouge, LA | 225-333-9190

Full-Stack Developer with 10+ years of experience delivering SaaS products, analytics platforms, and AI-driven systems. Specializes in turning complex business requirements into scalable, production-ready applications, with a focus on performance, usability, and measurable impact. Experienced in owning full product lifecycles, from system design to deployment and iteration.

## Work Experience

### Full-Stack Developer

*Panacea Software Solutions LLC (Self-employed) | Mar 2018 - Present*

- Delivered 20+ production-ready SaaS and web applications, leading end-to-end development from concept to deployment
- Reduced manual workflows and improved operational efficiency by building custom dashboards, automation pipelines, and system integrations across diverse client projects
- Maintained a 4.9/5 client rating through consistent delivery, clear communication, and product-focused execution

### Frontend Developer

*Temforce, Remote | Sep 2025 - Mar 2026*

- Built frontend workflows across 3 core areas and 4 optimizer modules using Angular and TypeScript, improving feature coverage and usability
- Implemented document handling and task actions, including in-app Office file viewing and sidebar-driven status and messaging flows
- Developed KPI dashboards and recommendation tables using PrimeNG and Highcharts, integrating with C#/.NET APIs for real-time insights

### Frontend Developer

*LuxLiving, Remote | Mar 2024 - Jun 2025*

- Delivered features across two platforms (LiveLux, BillEase), including complex dashboard experiences and 6 billing modules, improving performance by 30%
- Developed a forecasting dashboard aggregating 12+ KPIs per property, improving visibility into property performance and decision-making

- Implemented a multi-step vendor billing workflow with QuickBooks export and automated invoice email dispatch

## Senior Frontend Developer

*Found.ee, Remote | Sep 2020 - Nov 2023*

- Owned frontend development across 5 core product areas, including landing page builder, campaign setup, audience tools, reporting, and growth
- Designed multi-step campaign workflows (5+ steps) and high-performance dashboards using advanced state management and APIs, improving usability and engagement
- Contributed to Kotlin/Spring Boot API development for email templates and campaign workflows

## Frontend Developer

*Suite Studios, Remote | Nov 2021 – Feb 2022*

- Built initial product frontend (React, TypeScript), delivering 10+ core screens and core UI structure
- Migrated frontend to Webflow, reducing turnaround time for content and layout updates
- Built reusable components using Atomic Design principles to improve UI consistency

## Software Developer Intern

*ShareVista Business Technology Solutions, Baton Rouge, LA | Jun 2016 - Nov 2017*

- Built 3 WPF desktop applications (C#, XAML, SQL) to support internal business workflows
- Implemented UI improvements and input validation to reduce user errors during data entry
- Collaborated with a team of 3 developers to refine workflows and integrate backend data handling

## Skills

**Languages:** TypeScript, JavaScript, Python, C#, Bash

**Frontend:** React, Next.js, Angular | Redux, Zustand | Tailwind CSS, MUI, PrimeNG

**Backend:** Node.js, NestJS, Django, FastAPI, .NET Core | REST APIs

**AI & Data:** OpenAI API, LangChain, Retrieval-Augmented Generation (RAG) | Pandas, BigQuery

**Databases:** PostgreSQL, MySQL | MongoDB, Redis | Elasticsearch

**Cloud & DevOps:** AWS, GCP | Docker, Kubernetes | Terraform, Jenkins (CI/CD)

## Education

**Bachelor of Applied Science in Information Technology**

*Southeastern Louisiana University, Hammond, LA | May 2018*
